

WBRC Review List

(updated by Washington Bird Records Committee, October 2016)

Written reports of any observations of these species, or of species not on the Checklist of Washington Birds, should be submitted together with supporting evidence by email (wbrc@wos.org) or by using the [Report Form](#).

The Review List consists of birds with 20 or fewer records during the previous 10-year period.

Also included at the end are subspecies and morphs that are sufficiently rare to meet the same standards as full species and are reliably identifiable in the field.
